

TREMEC® Stick Shift Shootout And True Street Racer Appreciation Party Information

Do you think your manually shifted Ford-powered street machine is one of the quickest in the country? Well, you won't want to miss this! Long-time NMRA True Street supporter, TREMEC, has announced that they will once again hold the "Stick Shift Shootout™" as part of this year's NMRA season opener in Bradenton, Florida, and All-Ford World Finals in Bowling Green, Kentucky!

RULES: The rules are simple: Street-type manual transmissions only. May include race-oriented modifications such as 'face-plated' or 'pro-shifted' gears. Must be hand operated via a single shift handle. Transmissions with multiple levers or air/electronic/hydraulic actuation not permitted.

HOW IT WORKS: The staging lanes at each event will be bursting at the seams as over 100 entrants battle for top True Street honors. The fastest 8 stick cars will receive special shootout plaques and an invitation to participate in an all-out slugfest with a high-value heads-up finale! Here's how the Stick Shift Shootout works:

1. True Street average from Saturday True Street eliminations becomes dial in to establish handicapped start in Stick Shift Shootout
2. Handicapped start based on established dial in, no breakout, first to finish wins
3. All applicable True Street and performance rules & regulations apply
4. Use of match race style ladder:

THE PRIZES: The winner will go home with a brand new McLeod Racing RXT Twin Disc Clutch & Flywheel (\$1,300 approx. value) and a custom acrylic award presented in the Aerospace Components Winners Circle. The runner-up will receive a \$500 McLeod Racing product certificate and custom plaque.

Florida Event Party - TREMEC will also host a True Street Racer Appreciation Party at the Spring Break Shootout that will take place before the True Street awards ceremony on Saturday. Open to all True Street racers, along with their families and crew, the gathering will feature plenty of hot food, cold drinks, and good cheer for all!
