

## **NMRA True Street Presented by QA1... The Ultimate Street Car Class for the Beginner or Seasoned Racer**

Whether it's your first time racing or you have lots of ¼ mile experience...NMRA has the class for you... QA1 True Street! **True Street is designed for "true" street cars that are licensed, insured and capable of driving a good distance on the street.** After an NMRA escorted 20-30 mile cruise, make 3 back-to-back passes and see if you will take home some cash and a prize!

### **Here's How True Street Works:**

1. **Purchase your True Street entry** at the racer gate, and then head over to the True Street pit area. **It's a Saturday race** but you can purchase your entry on Thursday or Friday as well and make test hits.
2. After parking your car/trailer in the True Street area, you then **register** at the True Street tent (Friday noon & later) or at the NMRA registration trailer (before noon Friday) and **then proceed to the tech area** where an official will **"tech" your car** to make sure it's safe to race.
3. You will receive a **time run** (or runs depending on when you arrive at the track) prior to the True Street competition so you can see how your car is performing.
4. Attend the **True Street meeting** where an NMRA official will explain how everything works. There is lots of time for questions and answers.
5. Following the meeting you will head out on a **30-mile escorted cruise** around town or the facility....and it's OK to take passengers to enjoy the fun!
6. After the cruise there will be a brief **cool-down period** and then you hit the track.
7. QA1 True Street will be called to the lanes and you will make **3 back-to-back passes** down the track. **Reaction time does not matter** so just take off after you get the green light.
8. There will be a **True Street Awards Ceremony** a couple of hours following the race. NMRA will average everyone's 3 passes and the closest averages to 9, 10, 11, 12, 13, 14, & 15 seconds will each win \$100 cash, an award, and a trip into the Aerospace Components Winners Circle! The overall runner-up will also receive \$100 and an award and the overall winner will receive \$250 and an NMRA Victor Award!

**BONUS – all True Street competitors will receive a FREE entry into Sunday's NMRA Bracket Race...this is up to a \$100 value!**

**Fastest Street Car Event Coverage – True Street racers are often featured in Fastest Street Car's NMRA event coverage...so come on out!**
